

Natural monument

"Highlands of the Mountain Chekhov"

(Extreme tour, distance to the top: 9 – 25 km)

Mountain Chekhov is 1045 meters high and located near the city of Yuzhno-Sakhalinsk. From the top of the mountain a significant part of the Sakhalin Island can be overlooked.

There are two variants of this tour:

1. Tourists are transported by car to the climbing track. On the way back they (a) can be lifted by car again, and (b) take a walk along road. Overall walking distance in case (a) is 9 km, in case (b) – 17 km. Absolute lifting height is 850 meters.
2. Tourists don't use car. Overall walking distance is 25 km, absolute lifting height is 1000 meters.

Climbing track passes through several mountain belts with unique vegetation. Some rare species of vascular plants can be met: *Diphylleia grayi* Fr. Schmidt, *Padus ssiori* (Fr. Schmidt) C.K. Schneid., *Cremastra variabilis* (Blume) Nakai and *Trillium tschonoskii* Maxim.
